

Privacy Policy For PaperLoop

Last Updated: 27-02-2026

1. Introduction Welcome to PaperLoop ("we," "our," or "us"). We are committed to protecting your personal information and your right to privacy. This Privacy Policy explains how we collect, use, and safeguard your information when you use the PaperLoop mobile application (the "App").

2. Information We Collect and How We Use It PaperLoop is designed to be a local-first application, meaning we do not require you to create an account, and your saved exams remain on your device. However, to provide our core features, we interact with specific data:

- **Camera and Photo Library:** We request access to your device's camera and photo gallery to scan handwritten papers. This is the core functionality of the App.
- **AI Processing Data:** When you scan a paper or a formula, the image is securely transmitted to our third-party AI provider (Google Gemini API) to convert the handwriting into digital text. These images are processed for text extraction and are not used by us to identify you personally.
- **Local Storage:** Your generated exams, settings, and school logos are saved securely within your device's local file system. We do not sync this data to an external database.
- **Purchase History:** If you purchase Scan Tokens, the transaction is processed securely through Google Play and managed via RevenueCat. We do not collect or store your credit card information. We only receive an anonymous identifier to credit your device with the purchased tokens.

3. Third-Party Services The App utilizes third-party services that may collect information used to identify you or process your requests. These services include:

- **Google Play Services** (for app distribution and payments)
- **RevenueCat** (for managing in-app purchases and token balances)
- **Google Gemini API** (for AI handwriting recognition and formatting)

4. Data Retention and Deletion Because PaperLoop stores your exam data locally on your device, you have complete control over it. You can delete specific questions, sections, or entire exams within the App. You can also clear the temporary image cache via the App's Settings menu. Uninstalling the App will delete all locally saved exams and data.

5. Children's Privacy Our App is intended for educators, teachers, and professionals. We do not knowingly collect personally identifiable information from children under 13.

6. Changes to This Privacy Policy We may update our Privacy Policy from time to time. We will notify you of any changes by posting the new Privacy Policy on this page and updating the "Last Updated" date.

7. Contact Us If you have questions or comments about this Privacy Policy, you may contact us at:
